

BusinessSite eShop Mall TA15 ? mobile atrium & shelf

Slug: eshop-mall | Category: eshop

Guide

1. What TA15 is

BusinessSite eShop Mall is the mobile shell over the existing web mall (/eshop) and per-shop shelves (/eshop/<slug>/).

One APK: customers get a digital mall atrium; owners/staff open the same APK as their dedicated storefront.

Download: Powered Apps ? Recommended / TA15

· package online.businesssite.eshop · auto-update from 0.1.2+.

2. Roles (everyone is a customer)

Role	How you join	What you see
Customer (default)	Name + phone (+ optional selfie)	Mall atrium ? enter shops ? shelf ? cart
Owner / staff	Select eShop + phone ? selfie or support OTP	Dedicated shop mode in the same APK
Supplier / reseller / sales	Optional chips at join	Still a customer; full digitization continues after POS stabilizes

Important: registration never creates an eShop from your personal name.

Trading names only (e.g. Cake Couture, NINO). Say design my eshop and give a storefront name.

3. Shelf (web parity on mobile)

- Media - product photo gallery + video

- Description - full text on the details sheet

- Channel prices (high ? low): Walk-in / in shop · Web · App (card) · App + eyesWallet

- App checkout prefers App + eyesWallet when that channel is priced

4. Device unlock

Existing merchants: Unlock with photo (face enroll/match) or request a support OTP, then redeem the code. Same pattern as Sensi / NATIVEnvoy.

5. Chat commands

- guide eshop-mall - this guide

- guide eshop - full merchant shelf / media / promos guide

- open mall · eshopmall help

Chat commands

guide eshop-mall · eshopmall help · open mall · list shops · Powered Apps TA15 · businesssite-eshop APK

Exit multi-step flows

Say STOP or CANCEL or EXIT at any time. Say CONTINUE to stay in the current wizard.
